## Heather's Treats

All of Heather's treats are made to order with flavours of your choice, and decorated to include your ideas, colours and preferences.

The first thing to be said, is that the sooner you start your treat design consultation with Heather, (around 2 weeks before your collection date), the better, especially if your dream treats include some intricate floral detail.

Heather will listen to your needs and ideas before coming up with suggestions for your final design. There are lots of examples of Heather's creations on her website if you would like some inspiration.

Please remember, in addition to this options and price guide, **Terms and Conditions** apply to all orders. These can be found on the website or you can ask Heather to send you a copy.

### Collection and Transportation

A date and time will be agreed for you to collect your treats. Your treats will be handed over to you in the packaging you selected when placing your order. Depending on the quantity, it might be an idea to prepare a stable, flat and accessible surface in the boot or footwell of your car to keep your treats safe while you're driving.

### Finally...

Heather hopes you have all the information and inspiration you're looking for. There's nothing that can beat a one-to-one chat and there is nothing in the world that could showcase all of Heather's ideas and talents. It all starts with a phone call, an email or message on facebook, so when you're ready, get in touch and let's see where Heather's creativity will take you!
